

Abstract

The two vocabularies of friendship and hostility are together constantly in whole body of cultural nation. The subject that exposer all man-kinds relationship and appoints the direction of people in determinations.

The Quran which is the book of human-being's innate both topics. Briefly it should be say that the quran's point of view is a necessity preparation of a belief border for friendship and hostility.

The important point is either in internal and spirit domain of an in divitual and in external domain and variety relationship in society, knowing and intuition to hostilities and enmies which are very consciousness because under the view of quran there are two effective and twisted aspects in internal and external of men which reminds as the doctrine of “influence of appearance into conscience” and “influence of conscience into appearance”.

Searching the ways of hostility of enemies is the principal role in cognition domain(marefat) and then doing and acting wisdom contrasting against in wich this theme it is tried to consider under the notification of narrations and verses in the quran.

What is necessary for us is handling with enemies'belief so that to correct seeing which are the foundation of each movement and accepted jihad on the view of quran and stability of faith wich is the benefit of endless innate believing life.

Key word: enemy , belief , Faithful , Jewish , Hypocrite , Method , Attack
